

**America's Choice for Boat Lifts**

(800) 242-0015

## PILING SETTINGS FOR 8K BEAMLESS

**TOPBEAM: 9' 4" INSIDE-TO-INSIDE OF PILING**

Note: Mount 2" x 12" just above waterline here.

**IMPORTANT:** Vessel weight **MUST** be balanced equally at each of the four lift cables.  
Move vessel forward/aft, and port to starboard as needed to achieve even weight distribution.
